## **Your Macomb Country Club Pro Shop**

The benefits for a Club the size of Macomb Country Club committing to a primary vendor in golf equipment are considerable. We can carry every loft the company provides, in each shaft flex, along with a broader offering of wedges with many lofts and bounces to fit the needs of the different golfers. Rather than carrying a 10 degree regular flex driver from Callaway, Taylormade, and Ping, we can carry a 9, 10.5 and 12 degree driver head in Stiff, Regular, A flex, or ladies flex. While we do offer and can order directly Taylormade and Ping, we have committed to Callaway for several years now. At this time we appear to have aligned ourselves with the leader in the Golf industry. Callaway is:

#1 Driver and Overall Woods in January and February 2017

#1 Overall club company in 2016 and so far in 2017

#1 Overall Woods in 2016

#1 Hybrids in 2016

#1 Irons in 2016 and 2017, so far

#1 Putters company in every country where Callaway sell putters. Odyssey has over 60% of the putter market in the US. Callaway purchased the Toulon putter company the end of 2016 to compete with Titleist Scotty Cameron market

#1 Putter company on every PGA Tour in the World

Chrome Soft is the #3 overall ball (behind Pro V1 and Pro V1X which we carry at MCC) and the #1 selling ball at off course stores. Callaway is the fastest growing ball company in the US

Callaway is the Number 2 selling ball company, more than double the #3 company. The only serious competitor to Titleist.

With the new method of testing the COR (Club face reflex) of the faces on golf club heads, Callaway got the jump on everyone with their Jailbreak technology for supporting the crown and sole plate to strengthen the face and reduce the flexing of the overall club head. Callaway will test your current driver vs an EPIC head and show how much they can increase your ball speed off the clubface. Increased ball speed results in increase distance. The new technology is the biggest improvement in Driver heads in several years. Definitely worth your time to compare with your current equipment. Contact Gary to set a time at the Fitting and Demo session listed on page 3.

At the Pro Shop Gary has sets of the EPIC and Fusion Woods, along with sets of XR steelhead and XR Pro Steelhead irons that he will have available at demo sessions on the MCC Driving range.

We will announce 2 or more evenings for members to try multiple lofts and shaft flexes with the EPIC and Fusion drivers based on membership interest.

**Friday, May 5<sup>th</sup> from 2:00 – 6:00 we will offer a factory supported Fitting / Demo session** with the *PGA Tour favorite Trackman* available to evaluate with computer analysis. We will have 20 minute appointments members are encouraged to sign up for ahead of time. All members are invited to also walk up for testing and trial of the newest technology in Golf.

**SHORT GAME:** The week of May 14<sup>th</sup> we will have a Callaway provided sample of their wedges and Odyssey line of putters for trial by the membership. We will set two evenings up for the putting green area primarily for putters, and two evenings on the driving range for hitting wedges off the grass and sand trap.

We will be offering special pricing on equipment this spring in conjunction with these demo sessions, but no purchase is required. **These sessions are designed for the enjoyment and curiosity of our golfers.** Plan to set time aside as it does not get any easier that when it comes to YOUR private facility.

### **Events to start planning for:**

Sunday, May 14th MCC: Sign up with your partner, both must have a USGA handicap. We will play three 9 hole formats, handicap is used in each format; Alternate Shot, Scramble, and count both balls

Saturday & Sunday, June 24th & 25th: Men's Member/Guest
